LIGHTNING

ISOTROPIC SUPERFINISHED GEAR SET

US Gear is proud to announce the launch of the new Lightning Series! This high-performance gear set is made in the U.S.A. and undergoes a unique treatment known as Isotropic Superfinishing (ISF®). The ISF® Process produces not only an outstanding highly-polished look, it also generates a non-directional low Ra surface (the measurement of surface finish, or smoothness, of a part). Produced with mass finishing equipment in conjunction with chemical accelerants, the ISF® Process is non-hazardous and environmentally friendly.

FEATURES & BENEFITS

- Eliminates Break-in
- Reduces Friction and Wear
- Increases Part Durability
- Improves Corrosion Resistance
- Reduces Lubrication Requirements and Cost
- Improves Oil Retention Properties
- Reduces Contact and Bending Fatigue
- Improves Pitting Resistance
- Reduces Vibration and Noise
- Extends Component Life
- Reduces Part Failures
- Minimizes Overheating
